DETAILED ACTION

The receipt is acknowledged of applicants' request under 1.114, prior art and preliminary amendment, all filed 9/17/2002.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 7-10, drawn to sheet for covering the skin or hair
Comprising thermoplastic resin, medical ingredient and oily ingredient.

Group II, claim(s) 11-23, drawn to method of making a sheet comprising
thermoplastic resin and medical ingredient.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the sheet of Group I requires at least one oily ingredient that is not required by Group II. The sheet of Group I can be produced by another process such as impregnation of the medical ingredient

into the sheet and not requiring mixing, calendaring or kneading as required by Group II. Furthermore, the product produced by the process of Group II is distinct from the product of Group I as it does not have the oily ingredient.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
